Jay R. Smith Mfg. Co.[®] Comparison Guides

VARIOUS STANDARDS COMPARISON TO SMITH PRODUCTS

WARNING!

The standards listed herein were made for descriptive purposes only, and not to be used as a specification manual. Listed are recommended Smith products which fit the paragraph and illustrated figure numbers from ANSI/ASME Standards and products which conform to the ASSE and PDI standards. Bear in mind that the recommendations listed for ANSI/ASME are only assumptions as to what the specifier might want. Smith products specified from this comparison should be submitted to and approved by the specifier and/or contractor before ordering.

NOTE: Smith products are constructed in conformance with the applicable standards.

ANSI/ASME - SUPPORTS FOR OFF-THE-FLOOR PLUMBING ANSI/ASME Standard A112.6.1M

It is impossible to make an "assumed" figure number section for fixture supports. Fixture supports can be specified only if the plumbing fixture numbers are known and drainage piping layout is reviewed.
